

PMSC Celebrates 30 Years of Exceeding Customer's Expectations

St. Petersburg, FL — PMSC, a woman-owned small business, is celebrating 30 years providing premiere facility support services.

According to Carole Metour, PMSC's CEO, "Exceeding our customer's expectations is our secret to thriving when others have not. We look forward to another 30 years of sharing innovations, delighting our customers, and giving them the stability and peace of mind needed to help them do their jobs."

PMSC has been awarded multiple competitive contracts and grown to over 200 employees and craftsmen across the continental U.S. The company boasts an outstanding safety record and low employee turnover and is considered one of the top "go to" companies for turning around underperforming contracts on a very short schedule.

About PMSC

PMSC was founded in 1986 in California by the company's President and Chief Executive Officer, Carole Metour. With the headquarters in St. Petersburg, Florida since 1993, PMSC has grown to over 200 employees and craftsmen across its network of contract sites throughout the contiguous United States.

PMSC was awarded 8(a) certification from the Small Business Administration (SBA) in July 2001 for performance of work under prime NAICS Code 561210, and during the initial years, was awarded multiple 8(a) or sole source contracts. Yet, during PMSC's total certification years the majority of contracts with the Federal Government were awarded through competition, either as a small business set-aside or unrestricted. PMSC successfully completed its 8(a) status in May of 2010, and is currently designated as a Woman Owned Small Business (WOSB).

PMSC has enjoyed over three decades of growth and continues to excel in delivering Complete Facilities Maintenance (CFM) and Operations and Maintenance (O&M) to the Federal Government. PMSC continues to be one of the top "go to" companies to successfully turn around underperforming contracts on a very short schedule.

PMSC is a registered trademark of The Preventive Maintenance Services Company, dba PMSC in the United States.
