

PMSC Wins GSA Zone 1 BMO Multi-Award Task Order Contract for Small Business

St. Petersburg, FL —The U.S General Services Administration (GSA) has selected Preventive Maintenance Services Company (PMSC), a woman-owned small business, for their Federal Strategic Sourcing Initiative (FSSI) to supply Building Maintenance and Operations (BMO) services in its Zone 1 area. The Zone 1 BMO contract area includes the District of Columbia, West Virginia, Virginia, Pennsylvania, New York, New Jersey, Maryland, and Delaware. Receiving this highly competitive award enables PMSC to compete for various facilities maintenance contracts providing our Government customers with a variety of services.

Upon winning PMSC's CEO, Carole Metour said, "We are excited to be a part of GSA's BMO strategic sourcing initiative. Our new customers will receive the highest quality service, innovative solutions and the peace of mind that comes from an honest, experienced team of experts. Exceeding customer expectations is what makes PMSC so special."

In addition to GSA BMO, the Government has awarded PMSC multiple competitive contracts. The company has grown to over 200 employees and craftsmen across the continental U.S. The company possesses an outstanding safety record and low employee turnover. Government agencies consider PMSC one of the top "go to" companies for turning around underperforming contracts on a very short schedule.

About PMSC

The company's President and Chief Executive Officer, Carole Metour, founded PMSC in 1986 in California. The company moved its headquarters to its current St. Petersburg, Florida location in 1993. Since its inception, PMSC has grown to provide quality facilities maintenance services throughout the contiguous United States.

PMSC was awarded 8(a) certification from the Small Business Administration (SBA) in July 2001 for performance of work under its prime NAICS Code 561210, Facilities Support Services, and during the initial years, was awarded multiple 8(a) or sole source contracts. In addition, PMSC competed with other companies and received numerous contract awards, either as a small business set-aside basis or an unrestricted competition basis. PMSC successfully completed its 8(a) status in May of 2010, and currently operates as a Woman-Owned Small Business (WOSB).

PMSC has enjoyed over three decades of growth and continues to excel in delivering Complete Facilities Maintenance (CFM) and Operations and Maintenance (O&M) (including custodial/janitorial services) to the Federal Government.

PMSC is a registered trademark of The Preventive Maintenance Services Company, dba PMSC in the United States.
